

Dear Sponsorship Candidate,

We are eager to continue our fundraising and awareness efforts in 2019 as The Pittsburgh Melanoma Foundation! Over the past five years of fundraising events, we donated \$220,000 to melanoma research and awareness. 2018 was our most successful year to date with a donation of \$85,000 to Allegheny Health Network.

Our mission is to fight melanoma by increasing awareness, supporting patients, survivors, and families while assisting with funding important research. Melanoma is not only the deadliest form of skin cancer, but it is the fastest growing cancer in the United States, killing an estimated 8,800 people in the United States in 2011 (American Cancer Society). With early detection, it can be very treatable.

On June 1, 2019, we will be holding our annual Pittsburgh Melanoma Foundation 5k Run/Walk.. In 2018, we had over 1,200 runners and walkers in attendance! Along with our annual 5k, we are working with Dr. Howard Edington of Allegheny Health Network to continue growing our melanoma support group for Pittsburgh-area patients and families who have been affected by melanoma.

Melanoma is often brushed off as “only skin cancer”, but as Directors, we can tell you that the impact it has had on us. Jessica, a high school teacher and Peters Township resident, has battled melanoma twice, with her first diagnosis at the age of 24. She’s now on a mission to spread melanoma awareness and the dangers of tanning beds. Lauren, a pharmacist and Bethel Park resident, lost her father in 2010 to melanoma, only 10 months after he was diagnosed. After surgery, chemotherapy, and countless medical visits, Lauren’s father passed away in his home with his 3 daughters and wife next to him. Lauren’s experience has led her to devote time to this charity, determined to inform and educate so that others will not have to lose a loved one as she has to this misunderstood and deadly disease.

We hope you will consider becoming a sponsor of The Pittsburgh Melanoma Foundation. Our 2019 proceeds will benefit melanoma research at Allegheny Health Network under the direction of Dr. Howard Edington. Dr. Edington serves as the Chairman of Surgery at Allegheny Health Network and is recognized and respected worldwide for his research efforts in the field of melanoma and surgical oncology. The generosity of our corporate sponsors and participants in our fundraising events have been key in our success.

We sincerely thank you for your consideration.
